

Salt Lake City Refinery

Fact Sheet

REFINERY INFORMATION

The Salt Lake City refinery began operations in 1908 and is now the largest in Utah with a total crude oil capacity of 61,000 barrels per calendar day (bpcd). The refinery processes crude oil primarily from Utah, Colorado and Wyoming to manufacture gasoline, diesel fuel, jet fuel, heavy fuel oils and liquefied petroleum gas. These products are distributed through a system of terminals and pipelines, primarily to markets in Utah, Idaho and eastern Washington, with some product delivered to Nevada and Wyoming. The refinery also supplies jet fuel to the Salt Lake City International Airport. The refinery supplies MPC's network of Shell®, Tesoro® and USA Gasoline™ stations mostly in Utah, Idaho, and Nevada.

FAST FACTS

- Salt Lake City refinery full-time employees: Approx. 250
- Crude oil capacity: 61,000 bpcd

ENVIRONMENT

- Expansion project completed in 2015 retooled the refinery to process more Utah waxy crude, which has less sulfur, resulting in lower refinery emissions and higher quality lower sulfur fuel.
- Reduced emissions by installing ultra-low NOx burners.
- Started new project to produce lower sulfur Tier 3 gasoline that will be completed in 2019.
- Tail Gas Treating project completed in 2015 reduced SO2 emissions.
- Wet Gas Scrubber completed in 2017 has reduced both SO2 and NOx emissions by 98 percent and 60 percent, respectively.

HEALTH AND SAFETY

- Received a 2016 Award for Meritorious Safety Performance from AFPM.
- Received a 2016 Award of Merit from the Utah Safety Council.
- Employees participate in behavior-based safety program (STEPP).

COMMUNITY SUPPORT

- Invested over \$1.7 million in STEM, environment and public safety programs in the Rocky Mountain Region in 2017.
- Established partnerships and programs with the STEM Action Center and Junior Achievement to provide hands-on STEM education experiences. Both programs reach thousands of students each year.
- Provides support and leadership for multiple charitable and civic organizations in the Salt Lake Valley.
- Serves as corporate sponsor of the annual Rose Park Community Festival.

ABOUT MARATHON PETROLEUM CORPORATION

Marathon Petroleum Corporation (MPC) is a leading, integrated, downstream energy company headquartered in Findlay, Ohio. The company operates the nation's largest refining system with more than 3 million barrels per day of crude oil capacity across 16 refineries. MPC's marketing system includes branded locations across the United States, including Marathon brand retail outlets. Speedway LLC, an MPC subsidiary, owns and operates retail convenience stores across the United States. MPC also owns the general partner and majority limited partner interests in two midstream companies, MPLX LP and Andeavor Logistics LP, which own and operate gathering, processing, and fractionation assets, as well as crude oil and light product transportation and logistics infrastructure.
